

NGS130-6 Shimming Amplifier

650 W
Output power

Best in class
price/performance

- Multi channel Shimming Amplifier
- 6 channels
- 30V / 7Adc per channel

NGS130-6 Shimming Amplifier

Isolated power supply	Min	Typical	Max	Unit
Mains (single phase)	100		240	VAC +/- 10%
	50		60	Hz
Prated		750		W
Tolerant to mains dips and swells				
C14 connector on front				

Output performance	Min	Typical	Max	Unit
Output voltage		+/-30		V
Induced voltage handling capability			50	V
Induced current (peak/RMS)			10/5	A
Output Current (low impedance output)		+/-7		Adc
Maximum continuous output power (total combined)			650	W
Load range	0.5		20	mH
	1		6	Ω
